

# Do You Know the Money You Will Save with No Obligation?

**Initial WTI audit is FREE to the client!!!**

- WTI gets paid when a customer receives a credit from its carrier.
- WTI gets paid a percentage of the ongoing new savings for a period not to exceed 24 months. Therefore, if a client signs a new 2 year agreement with its vendor at a lower price then client pays WTI 50% of the realized savings.

**ACCORDING TO A USA TODAY STUDY, MOST COMPANIES SPEND UP TO 35% MORE THAN THEY NEED ON TELECOMMUNICATIONS SERVICE, MOST OFTEN BECAUSE:**

- THEY PAY FOR SERVICE THEY DO NOT USE.
- THEY HAVE SERVICE CONTRACTS THAT ARE NOT SUITED TO THEIR NEEDS.
- THERE ARE ERRORS ON THEIR BILLS AND THEY ARE PAYING TOO MUCH.
- THEIR SERVICES ARE NOT OPERATING AT OPTIMAL LEVEL.
- THEY ARE TOO BUSY WITH MORE IMPORTANT ISSUES TO EFFECTIVEY ANALYZE THEIR EXPENDITURES.
- THEY NEED SUPPLEMENTAL KNOWLEDGE OR EXPERTISE TO KEEP UP WITH TODAY'S RAPIDLY CHANGING TELECOMMUNICATIONS laws including taxation and regulatory charges.

I really wasn't expecting that WTI would be able to really save us much since we had done our homework for telecommunications providers. We were completely wrong! WTI was able to reduce our costs by 38%. I can't say enough good things about these guys! Thanks again.
